Also, the continues effort of developing and improving the faculty of traditional Islamic art to ensure the practice of education is approached in the technical and spiritual understanding by Providing an innovative, integrated and challenging, yet traditional, learning and teaching environment that combines standard lectures, practical workshops, authentic apprenticeship. Contributing to the creation of sustainable environmental, social and economic outcomes through education and research that expands knowledge and understanding of Islamic

Traditional Arts and Architecture into the region and beyond.

The World Islamic Sciences and Education University is a student centered university which aims in all programs to spread the knowledge in an active interactive method. Some of These programs are available and offered freely and online for the national and the international communities.
