## SDG9: INDUSTRY, INNOVATION AND INFRASTRUCTURE

The World Islamic Sciences and Education University has developed a modern and user-friendly website to provide easy access to information and keep pace with the latest technological developments.

The World Islamic Sciences and Education University is committed to renewable energy and aims to establish research and innovation partnerships with companies to

improve the quality of STEM education. Moreover, it is upgrading its network infrastructure and collaborating with the King Abdullah II Center for Excellence to create an innovative work environment.

The World Islamic Sciences and Education University plans to create e-commerce projects to strengthen the economy and introduce engineering and research programs to achieve sustainable development and create job opportunities. Additionally, it is dedicated to advancing the SDGs and investing in its STEM programs to bolster the economy.

The World Islamic Sciences and Education University also plans to include medicine as a speciality in its colleges and offer programs in arts, humanities, and social sciences to provide a competent workforce. Currently, the University has a total of 658 employees, with 309 academic staff members. Our university is

constantly working to develop industry, innovation and infrastructure by signing a number of agreements through which we promote the goal of sustainable development as best as possible.

The public relation department, and deanship of student affairs at the University is committed to creating a respectful work environment that values ethics, communication, and modernization. These policies and efforts align with the SDG9.

Our university develop all its forms by agreements with to implement infrastructure is foundation of technology plays an driving innovation and infrastructure and align with the SDG9 as best as possible.

works to infrastructure in signing local institutions projects. IT viewed as the our university's systems and essential role in

Finally, The World Islamic Sciences and Education University contributes to the development of the (SDG9) 'INDUSTRY, INNOVATION AND INFRASTRUCTURE' by publishing different publications under this (SDG9). One of the recently published research: Alshura et al (2023). Publishing the paper entitled "The Impact of Organizational Innovation Capabilities on Sustainable Performance: The Mediating Role of Organizational Commitment".
