SDG14: LIFE BELOW WATER

Our university trains students and faculty so that they can in turn provide similar environmental education at the local and national level. It adopts and launches campaigns that promote the preservation of the environment and cleanliness, as a social responsibility to all.

Additionally, **The World Islamic Sciences and Education University** contributes towards the achievement of a sustainable environment and campus through teaching specialised subjects through courses concerned with environments and the biosphere to understand the information on supporting aquatic ecosystems.

The Ministry of Environment approved the Consultation Center at **The World Islamic Sciences and Education University**, to conduct environmental impact assessment studies. The center will train and qualify cadres interested in this field on how to conduct environmental impact assessment studies.

The university participated in the world environment day with a campaign for clean water areas in partnership with the Ministry of Environment. And on-campus food is purchased from sustainable sources to the extent possible.

Our university apply the government regulations in water quality standards and guidelines for water discharges (to uphold water quality in order to protect ecosystems, and human health and welfare. Our university inform student canteens to reduced use of plastic bags. Plastic bags will not be provided for take-away meals. Plastic straws will not be available for drinks bought and consumed in the canteens. Furthermore, the university actively promulgates the policy of recycling and reuse of resources.
