The Faculty of Islamic art and architecture organizes several activities in the local community which can include student volunteering programmes to improve or promote the message of health & wellbeing including hygiene, nutrition, family, driving safe and wellbeing. As for sports and exercise, the university shares sports facilities with the

local community, such as public schools. Regarding mental health care, the university provides students and staff with access to mental health support through the faculty of humanities the specialized staff in Psychological health. The university follows the safety requirements through preparing its buildings and lecture halls abide with the safety standards published by quality and accreditation institutions for educational institutions in Jordan. Safety and welfare management are critical to the success of the University and the achievement of its strategy. The University is committed to fostering a culture of health, safety and wellness and encourages incident reporting monitoring and sharing lessons.
