SDG5: GENDER EQUALITY

The World Islamic Sciences and Education University According to the general registration in 2021, has 2062 female students and 1832 male students so by denying gender equal rights, we deny half the university body a chance to live life at its fullest. Political, economic and social equality. for both women and men and here we may be proud of how far the university has come in terms of becoming richer and more equitable and we see this clear in the following: 1. Gender equality in right and responsibilities. 2. Gender equality in pay.

Finally, **The World Islamic Sciences and Education University** contributes to development of the (SDG5) 'GENDER EQUALITY' by publishing different publications under this (SDG5). One of the published research: Zalloum and Bouqalieh (2021). Publishing the paper entitled "Effectiveness of the WebQuest strategy-based educational platform and learning environment in acquiring biological concepts and systemic thinking in the biology course among pre-service teachers".
